teachers.**

On 5 th June being Monday the session started with meditation by Sree Ranjtha maam and also the most important topic how to approach for casual leaves was clearly conveyed by the coordinators then the Math department went ahead with their Micro teaching. The teachers gave various methods to solve maths problems in an easy and effective way. Then the English Department showcased their talent in showing how English can be taught and communicated by the LSRW method. It was an interesting micro teaching session. After a good lunch the session started with the social department taking us through different eras and enlightening us about the revolts and revolutions and indian history. The day ended on a good note we being thoroughly educated by the educators.

6th June Tuesday again the day started with meditation session . The language teachers and social department teachers had an interesting orientation program by the educators of different publications and got ample of knowledge regarding the book content and how to make the class lively. There was an interesting micro teaching by the telugu department and EC department giving many ways of imparting knowledge to the children. The day ended on a good note everyone understanding and thinking ways of implementation

7th June 2023 The started with Meditation conducted by sreeranjitha mam Session 2 English Orientation program by Mrs Jaya Kapoor was too good sweet and smart* Activity - it was the purpose. to give a message of life skill , social skill, team participants of all members where as vocabulary building and frame the sentences.* Reading - Silent reading by students and loud reading by teacher .* Lesson plan - With some key words by page wise .It was a live session. English orientation programme dealt with an activity with a purpose. This needed no aids whatsoever but it had entertainment, vocabulary building, life skill, building empathy and so on. How to make a lesson plan and thematic lesson planning by integrating with other subjects was explained. Mrs.Jaya Kapoor showed how a lesson can be taught in four days in detail and how to incorporate Grammar with the lesson. We came to know about a programme called DEAR which could help each and everyone develop their reading skills and with it their command over the language. On the whole it was quite a helpful, informative, crisp and a lively session. Session 3Hindi Micro teaching was done by hindi department teachers

8th June Mathematics dept. had their orientation program by Mrs. Supriya from Ratna Sagar Publications . Who gave her introduction and started the program with details about NEP . Which was explained through various activities and how to deal with classroom activities while teaching maths from hand on to the end of Mathematics operations. The session was very interesting and enlightening.
